We will discuss 3 things...

Nosotras discutiremos 3 cosas

- 1) Our plan for the first week of school (the week of August 10th)
- 2) Our plan for weeks 2-4 of school (the weeks of August 17th, 24th, and 31st)
- 3) Our parent information series for the next 6 weeks to make sure you have the information you need to best support your scholar.

1) Nuestro plan para la primera semana de clases (la semana del 10 de agosto)

2) Nuestro plan para las semanas 2-4 de la escuela (las semanas del 17, 24 y 31 de agosto)

3) Nuestra serie de información para padres durante las próximas 6 semanas para asegurarnos de que tenga la información que necesita para apoyar mejor a su estudiante.

Week 1...

The 1st day of school is now Monday, August 10th and the 1st week consists of onboarding and welcoming our scholars and families back to school. During this 1st week, our scholars will get the opportunity to:

- Do an in-person or virtual parent/scholar-teacher conference to establish that personal connection and learn more about your family's unique needs during this time
- Pick up their chromebook, if needed
- Practice using our new Learning Management System- Schoology
- Finish their summer homework assignments

Please note, there will be no formal instruction this week but we will instead make sure every scholar is ready to engage in remote learning and knows their teacher.

Semana 1.....

El primer día de clases es ahora lunes 10 de agosto y la primera semana consiste en incorporar y dar la bienvenida a nuestros alumnos y familias de regreso a la escuela. Durante esta primera semana, nuestros estudiantes tendrán la oportunidad de:

- Haga una conferencia en persona o virtual de padres / académicos y maestros para establecer esa conexión personal y aprender más sobre las necesidades únicas de su familia durante este tiempo.
- Recoja su Chromebook, si es necesario.
- Practique el uso de nuestro nuevo sistema de gestión de aprendizaje: Schoology
- Terminar sus tareas de verano.

Tenga en cuenta que no habrá instrucción formal esta semana, sino que nos aseguraremos de que cada alumno esté listo para participar en el aprendizaje remoto y conozca a su maestro.

Weeks 2-4: Intentionally planned this way...

Weeks 2-4 have been carefully designed to:

- **Review key academic concepts from the 4th quarter last year that are essential for scholars to know to be successful in the current year**
- **Dedicate formal time each day to build strong scholar-teacher relationships and to build our scholar's social-emotional learning skills**
- **Support our scholars in building up their stamina to be learning virtually for an entire school day. You will see we start with half-days, then build in longer stretches with independent work time in order for scholars to be ready for a full-day of teacher-led instruction after Labor Day (September 7th).**

Hence

Semana 2-4: Planificada intencionalmente de esta manera ...

Las semanas 2-4 han sido cuidadosamente diseñadas para:

- Revisar conceptos académicos clave del cuarto trimestre del año pasado que son esenciales para que los académicos sepan que tienen éxito en el año en curso.
- Dedicar tiempo formal todos los días para construir relaciones sólidas entre académicos y maestros y para desarrollar las habilidades de aprendizaje socioemocional de nuestros alumnos.
- Apoyar a nuestros estudiantes en el desarrollo de su resistencia para aprender virtualmente durante todo un día escolar. Verá que comenzamos con medio día, luego desarrollamos tramos más largos con tiempo de trabajo independiente para que los estudiantes estén listos para un día completo de instrucción dirigida por el maestro después del Día del Trabajo (7 de septiembre)

Por lo tanto

Hence our daily schedule for weeks 2-4 is:
