#SAFELY FORWARD
return to in-person learning 2020
uplifteducation

We Meet or Exceed All CDC Recommendations on Our Campuses

CDC Recommendation		Uplift Education Specifics
Face Masks at all times except when eating and drinking	☑	Face masks are ALWAYS required in ALL Uplift buildings with the exception of when people are eating and drinking
6 feet of social distancing	☑	All classrooms are set up with desks 6 feet apart from each other and the teacher
Frequent hand washing for 20 seconds	☑	Regular protocols are set during the school day
Cover coughs and sneezes	☑	Signage displayed throughout the building as a reminder
Hand Sanitizer and hard surface wipes available in the classroom	☑	Every classroom has hand sanitizer and hard surface cleaning wipes
Reminder posters and visual cues throughout the building and classrooms	☑	Posters throughout the building for visual cues about safety protocols
Cleaning Protocols		
Regular cleaning and disinfecting	☑	Stringent cleaning and disinfecting procedures in place using disinfectants identified by the CDC and EPA as approved for safe and effective use against Coronavirus.
Ventilation	☑	Uplift schools have been designed and constructed with very robust outside air exchange equipment that does exactly this. The outside air exchange equipment is completely controllable to increase/decrease the volume and speed you want to 'flush' and 'ventilate' the building, and can all be adjusted using the building controls system
Air Filters	☑	Uplift upgraded to MERV 13, which can filter most everything including bacteria and viruses
Physical Arrangement of Building		
Six feet social distancing	☑	All classrooms are set up with desks 6 feet apart from each other and the teacher. Throughout common spaces and hallways clear are markings for 6 feet social distancing
Clear barrier separation at teacher desks	☑	Partitions at teacher desks to maintain social distancing

Additionally, Uplift is requiring the following from all staff, scholars and guests entering our facilities:

1. **Complete a COVID-19 symptom survey questionnaire**
2. **Temperature checks**
