

March 18, 2020

Dear Uplift Families-

We are so excited and happy that almost 10,000 scholars went onto our Facebook pages today to view our suggested academic enrichment videos for each grade level! We are grateful to all Uplift parents for their support.

As you can imagine, we did not plan on so many comments and messages which we have received via social media. We are trying to respond to each and every one, but we do not have the capacity to continue to do so at this time. As we continue to support you, we have decided to move everything off Facebook going forward and onto our YouTube Channel instead, where you can continue to view videos and continue to be engaged with your learning. The YouTube link is: <https://www.youtube.com/channel/UCH2ViG3HABnAV0ypHovvR1w>. The sections are broken first, into primary, middle, and high school and from there, the sections are broken into grade level for easy viewing. You can also access the YouTube link and receive answers to some of your frequently asked questions on our [Online Academics web page](#).

If you are missing login information to the online learning platforms, please email edtech@uplifteducation.org to receive your scholar login information. We have almost 20,000 scholars in our network, so please be patient as we respond to each one of you.

We encourage all Uplift scholars to continue learning during the school closure period, at this time attendance and homework are not mandatory and our activities and lessons are for academic enrichment purposes only. We do encourage learning during this time, since we do not know how long this closure will be.

Sincerely,
Yasmin Bhatia
Uplift Education, CEO
